## CITYMAPS KL CAT

### KL City Air Terminal

KL CAT or Kuala Lumpur City Air Terminal serves as an extension of Kuala Lumpur International Airport (KLIA) for the residents and business community of the city and its suburbs.

With its prime location within the KL Sentral development, KL CAT is modelled on the concept of an air terminal within a busy metropolis - providing convenience of check-in services to airline passengers.

KL CAT is officially recognised as a city destination by International Air Travel Association (IATA), with its XKL code for transfers and baggage. It is supported by an integrated rail transit system for easy access, and is linked to KLIA through regular KLIA Ekspres high-speed rail services.
